FACTS and OBSERVATIONS

On Sandy and the Regions
Beyond.

The writer left home on Thursday morning, Oct. 1, and spent the night at White House. This is a hustling place for business. Car loads of merchandise are on the tracks and freight depot crowded. The estimate is that 100 wagons a day are going and coming. I did not count. This is the terminus of railroad, although 6 or 7 miles of track are laid beyond. Much work is being done on culverts and bridges.

Reached Paintsville on Friday afternoon. Here we met J. C. Ramsey, of Mt. Sterling. He is in charge of W. U. office and two telephone lines. He was hustling. Mrs. Henry Howes was in dying condition from typhoid fever. The town has been greatly scourged by this disease during the summer and fall. Bad water is said to be the cause. We drank no water or milk while there. Spent one day there and left for

SALYERSVILLE.

Circuit Court began here Monday. Candidates of Circuit Judge, Riddell and Blakey were here and made speeches. J. K. Roberts, of Beattyville, Democratic candidate for Commonwealth Attorney, is at home sick. His opponent, Mr. Adams lives here.

We attended the Presbyterian church on Sunday morning and evening, and after adjournment in morning heard part of two sermons at Baptist church. Few court attendants were religiously inclined.

The drouth throughout the Sandy and upper Licking valleys is very severe. We think we would

be correct in saying that a big chip would go aground on these rivers. Crops of all kinds are short. Corn will be about one-half. During Sunday night rain began. Water for man and beast is scarce at Salyersville.

Mrs. Mary Prater and daughter, of Pineville, Mo., are visiting relatives in this county. She is a sister of Mrs. Jeff Prater, "mine hostess." This is her first visit for 17 years. A large attendance is expected here to day.

On Monday of last week the old Gardner homestead, the property of Mrs. Nancy J., widow of Joe Gardner, was destroyed by fire. The residence was occupied by her married son John. He lost nearly everything, although there were at dinner seven men when the fire was discovered. There was no insurance.

The writer stayed here until Thursday morning. Light rain continued until Wednesday night, when a hard rain fell. The drouth is ended, and the streams are again running. We heard that some people can now wash their faces.

On Wednesday Mrs. James Witten, of Oil Springs, fell and broke her hip. Drs. F. M. Witten, of Oil Springs, R. C. Adams, M. C. Kash, of Salyersville, are the Pension examiners. W. G. Smith, of Winchester, and C. B. Rose, of Hazel Green agents for State Mutual Life Insurance Company, of Massachusetts, were here writing policies.

Two indictments for murder were returned before we left, against Brown for killing Arnett, and against Montgomery for killing Fletcher.

From West Liberty we met A. N. Cisco, Wallace McGuire, F. E. Fogg and wife.

Indications were favorable for court to adjourn on Friday. We

could see enough to know that there is urgent need for the suppression of the liquor traffic in Magoffin county. We heard it said that a wholesale house in Salyersville is the promoter of "blind tigers" in that county.

The writer preached at the Presbyterian church on Monday, Tuesday and Wednesday evenings to small audiences.

We were guest at the Prater House. This hotel is always well patronized. The table is bountifully supplied with a great variety of substantial and delicacies. We counted eight kinds of sweets. The rate is \$1 per day. Jeff Prater and wife will see that their guests are well fed. Mr. Prater left on Thursday morning for the military encampment at West Point Ky. On same day the writer left on horse back and came to Cannel City and took train for Winchester where he spent the night. We were at home on Friday morning, after an absence of nine days. B. W. Women of Mayfield Enlist Business Men in Fight Against Whisky-Selling.

The citizens of Mayfield have not been so worked up over the whisky question in years. The courts have made it almost impossible for whisky and beer and other intoxicants to be sold there, but the Paducah Distillery Company, through its agent, procured a license under an ordinance which was passed several years ago, and opened its business on the east side of the public square.

Monday night, September 28, the ladies of the town, under the leadership of Mrs. J. H. Roberts, wife of the Methodist minister of this place, called in a body on the City Council with a lengthy petition and asked that the license be revoked, and were told that it could not be done. They appointed various committees, and one of these called on the representatives of the company and asked him to close his house and leave the town, telling him that they would repay his license, and have his rent remitted, and also pay the freight on all his goods back to Paducah. He informed them that he merely intended to conduct a strictly wholesale house. Another committee waited on all the business men and asked that they attend a mass-meeting at the Courthouse. The Hon. W. H. Hester, Commonwealth's Attorney, was chosen Chairman. Speeches were made and a committee was appointed to wait on the wholesale representative.

The boll weevil is reliably reported to be at Alexandria, Louisiana. This is in the heart of the Louisiana cotton growing district. It is also in the fields near New Orleans, and will almost certainly extend its ravages to other sections in time.

The Way to Raise a Good Garden.

First, in the late fall manure your garden with good rich manure of any kind. Stable manure is best.

Second, turn the land right away. Be sure to break well and as deep as you can, and turn well.

Third, in the spring time disk your ground as thoroughly as possible close and deep.

Fourth, run a smoothing harrow over it, and then a drag to get the surface smooth, and even.

Fifth, mark off your rows with a hand garden plow and plant in furrows. Never plant in ridges—ridge gardening is a thing of the past.

Sixth, do not put the mule and horse plow in the garden, but cultivate with the hand garden plow. Keep the land well cultivated with the plow and the result will be satisfactory. You will have to use the hoe to have a perfect clean garden. It is pleasant pastime to use the hand plow for your ground is loose and works well.

Seventh, when you manure and break your garden in the fall of the year, the earth takes up all the elements of the manure that is necessary for a good garden, the winter freezing puts the ground in fine condition for the vegetable roots to go down deep. If my fellow farmers would try the above plan I think they would be pleased with the result. Dr. Clifton Fowler, Stanford, Ky.—The Inland Farmer.

Robs Museum of a Bigamist.

Harold C. Mills, the man of six wives, who is in the county jail awaiting sentence to the penitentiary, will not deliver a lecture on "How to win a Woman" from the stage of a dime museum. Judge Brentano refused to admit the bigamist to bonds yesterday, and incidentally rebuked the lawyer for the museum who applied for Mill's release.

"I will be a party to no such disgraceful scheme," said the Judge. A bigamist who cold-bloodedly has broken women's hearts deserves to be consigned to oblivion behind prison walls rather than paraded on a stage."

The museum manager expected to clear \$25,000 by exhibiting Mills for a week.—Chicago Record-Herald.

REASONS WHY

Citizens Should Vote against
Republican State Ticket.Long List of Lawless Acts Under
Taylor and Bradley.

Numerous reasons can be given why voters should not cast their ballots for Col. Belknap in the coming election. The comparison of the administration of Governor Beckham with the administration of his two predecessors, W. S. Taylor and W. O. Bradley, show plainly why the people of the State should prefer Democratic rule rather than government by the Republicans.

Among the reasons why citizens should vote against Col. Belknap and the Republican State ticket are the following: Kentucky stolen from Bryan in 1896.

Bradley's Administration extravagant and corrupt, with scandals in public institutions.

The use of the military in Louisville, and of thin ballots in the mountains—the purpose of both being the defeat of the popular will and the debauching of the ballot box.

The calling out of the military under Bradley to overawe the Legislature and prevent the election of a United States Senator; and by Taylor to destroy the Legislature and prevent the election of a Governor.

The dispersal of the Legislature at the point of the bayonet, and its chasing through the streets of the State capital by an armed soldiery.

The defiance of the courts by Taylor and his overthrow of the great writ of habeas corpus.

The thousands of desperadoes carried to Frankfort in the disguise of soldiers.

The threats and plots of assassinating the Supreme Court, and the flight of that tribunal from Frankfort to escape death.

The conspiracy to kill off enough members of the Legislature to give the Republicans a majority.

The bloody assassination of Governor Goebel. The pardon of the accused assassins of Governor Goebel by Taylor.

The flight of Taylor and Finley to Indiana after their indictment for the assassination of Governor Goebel.

The long and desperate fight made by Powers and Howard to escape the just consequences of the crime for which they have been indicted, and twice convicted—a fight made possible only by the voluntary financial contributions of Republicans all over the State.

The Rice Association of America has voted to raise \$20,000 for the purpose of establishing a kitchen at the St. Louis World's fair with a view to extending the market for rice.

CORRESPONDENCE.

JUDY ITEMS.

Born to Author Jacobs and wife a daughter, weight four and one-half pounds.

Minot, the little one-year-old son of Elgin Northcutt has about recovered from a very acute inflammation of the bowels.

Mr. Osborne, of Judy, is suffering great pain from a bone felon on his thumb.

The people of Judy were glad once more to see the smiling face of Dr. E. R. Dean, of South Bend, Indiana.
